Object of Tax Treaties

- Treaties cannot levy tax but can give relief- Azadi Bacho Andolan 263 ITR 706 (SC)
- The Andhra Pradesh High Court in Sanofi's 354 ITR 316 (AP) made some key observations about the importance of DTAA's and their relevance in the global scenario
- In recognition of the pejorative effect of double taxation on exchange of goods and services and movement of capital, technology and persons, agreements/treaties/conventions/protocols were entered into for removing obstacles that double-taxation presents to development of economic relations between nations
- Treaties or Conventions are thus instruments signaling sovereign political choices negotiated between States to avoid double taxation through restriction of tax claims in areas where overlapping tax claims are expected, or at least theoretically possible

- **1992 OECD MC**
  - Title: reference to elimination of double taxation removed because of other objectives of OECD MC ("*Convention between A and B with respect to taxes on income and capital*")
  - Comm.: widespread practice of States to include reference to avoidance of double taxation or to both avoidance of double taxation and prevention of fiscal evasion in title and preamble
- **2003 Comm.**: "The principal purpose of double taxation conventions [OECD MC 1977]. It is also a purpose of tax conventions to prevent tax avoidance and evasion"

In view of Section 90(2), the assessee is entitled to claim benefits of the Double Tax Avoidance Agreement to the extent the same are more "beneficial" as compared to the provisions of the Act.

While doing so, in cases of multiple sources of income, an assessee is entitled to adopt the provisions of the Act for one source while applying the provisions of the DTAA for the other.

- **IBM World Trade Corporation Vs. A011(2012)20 taxmann.com 728 (Bang)**

The concerned contracts are different; the source of income is different; and the provisions under which royalty income is taxable, ore different and the assessee was, therefore justified or offering the royalty income arising under two different contracts at two rates - one under the Act and one under the Treaty.

- **AGT International Gmbh v/s DCIT ITA No 7465/Mum/2018**

Services PE being triggered under India – Swiss treaty on account of rendition of services in India, can never make the assessee worse off so far as the tax liability in source jurisdiction is concerned.

Union of India v Azadi Bachao Andolan 263 ITR 706 (SC)

- Issue – Whether Circular No. 789 dated 13.4.2000 with regard to the application of Indo – Mauritius Double Taxation Avoidance Convention issued by the CBDT is ultra vires of S.90 and S.119 of Income Tax Act, 1961?
- Held :
- Principles adopted in interpretation of Treaties are not the same as those in interpretation of Statutory Legislation.
- Treaties are negotiated and entered into at a political level and have several consideration as their bases.
- Circular briefly defines Article 4 of the Indo – Mauritius DTAC and states that FIIs and other investor funds incorporated in Mauritius are invariably residents of the country and thus liable for taxation in Mauritius.
- SC states that Circular No. 789 does not interfere with S. 90 and S. 119 and is well within the ambit of the Indian Income Tax Act.

Formula One World Championship Ltd 394 ITR 80 (SC)

- Assessee entered into a Race Promotion Contract (RPC) by which it granted to Jaypee Sports, right to host, stage and promote Formula One Grand Prix of India event at motor racing circuit owned by Jaypee.
- During the period prior to the race and post the race the assessee had full access to circuit and could dictate as to who was authorized to access circuit and organizing any other event on circuit was not permitted.
- Assessee, as well as its affiliates, undertook all possible commercial rights, including advertisement, media rights etc. and even right to sell paddock seats, such arrangement clearly demonstrated that entire event was taken over and controlled by assessee and its affiliates on the one hand and Jaypee sports on other.
- Fixed place of business in the form of physical location, i.e. Circuit, was at the disposal of assessee through which it conducted business, taxable event had taken place in India, and non-resident assessee was liable to pay tax in India
- Whether question of PE had to be examined keeping in mind duration of event, which was for limited days, and for entire duration, assessee had full access through its personnel. Hence, number of days for which access was there would not make any difference
- They said circuit constituted Permanent Establishment of assessee in India, mere construction track by Jaypee or its ownership or organizing other events was immaterial.

ADIT v/s E-Funds IT Solutions Inc 399 ITR 34 (SC)

- The Indian subsidiary company only rendered support services which enable assessees, in turn, to render assistance to their clients abroad.
- Business income of companies incorporated in the US will be taxable only in US unless it is found that they have PEs in India, in which event their business income, to extent to which it is attributable to such PEs, would be taxable in India.
- Whether since no part of main business and revenue-earning activity of assessees was carried on through a fixed business place in India which had been put at their disposal and Indian company only rendered support services, outsourcing of work to India would not give rise to a fixed place PE.
- Whether so far as service PE is concerned, requirement of article 5(2)(1) of DTAA is that an enterprise must furnish services within India and that such services are furnished through employees or other personnel.
- Merely because auxiliary operations that facilitated such services were carried out in India, first ingredient contained in article 5(2)(1) was not satisfied and, thus, it was not necessary to advert to other ground namely, that other personnel would cover personnel employed by Indian company as well , and that US company through such personnel were furnishing services in India.
- Whether so far as agency PE was concerned, it has never been case of revenue that Indian subsidiary was authorized to or exercised any authority to conclude contracts, on behalf of US company, nor was any factual foundation laid to attract any of clauses contained in article 5(4) of the DTAA 'agency PE' aspect of case needed not be gone into.
- Where transaction between assessees and Indian entity was at ALP, no further profits could be attributed even if there existed a PE in India.

Honda Motor Co Ltd 301 CTR 601 (SC)

- Notice issued for reassessment was based only on allegation that it had permanent establishment in India.

- Review Petition has been dismissed in 265 Taxman 542(SC)

  ii) Credit Method (Full credit/Ordinary credit)
     - State of Residence will calculate tax on the entity's total income in State of Establishment and permits a credit for tax paid in the other state
