# Virtual Courts – Online Adjudication

## [vcourts.gov.in](http://vcourts.gov.in)

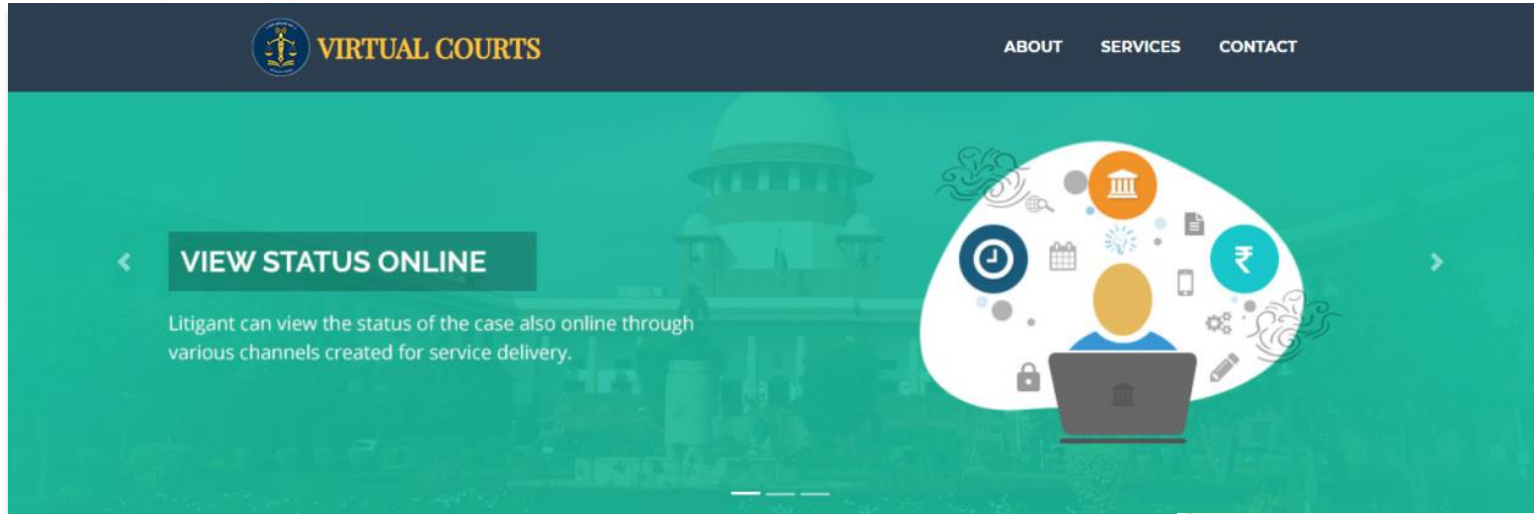

### Key Features

- Virtual Court eliminates physical presence of offender/violator in the court.
- Number of judges performing judicial work in adjudicating traffic challans across the state can be reduced virtually to single judge located in any part of the state.
- Electronic traffic challans are made available to the virtual court for adjudication.
- Virtual Judge can proceed adjudication of the cases online by imposing fine.
- On imposing the fine by virtual judge, violator gets the SMS on his/her mobile to visit portal [vcourts.gov.in](http://vcourts.gov.in) and may pay the fine amount.
- On successful payment of the fine, the case is deemed disposed off.
- If violator, wish to contest the case, response is recorded by entering OTP on the portal. In such eventuality the case is transferred to regular court for further hearing.

- Proceedings completed in challans: **92,47,157**
- Total fine amount collected: Rs. **182,72,11,622**  
(Rs. 182Crore 72 Lakhs)

### Replication in other states:

- eChallan software to be in place and must be used by traffic
- Court should have mechanism to collect the Fine through e-payments, like SBI or any such mechanism existing in the state.
- One virtual judge may have to be appointed with jurisdiction to try offences from across the state.

# Integration with other systems

## Integration with other systems

eCourts system is integrated with other systems. Services are extended to UMANG and CSCs.

### UMANG

- UMANG (Unified Mobile Application for New-age Governance) a mobile app that provides a single platform to citizens to access pan India e-Gov services ranging from central to local government bodies and other citizen-centric services.
- e-Courts services are integrated with UMANG app and launched for district and subordinate courts.
- All the APIs required by UMANG were shared by e-Courts team.
- Case status, orders/ judgments, cause lists etc., are also available through UMANG app to common citizens.

# Integration with other systems

## Common Service Centres

- Common Service Centers (CSCs) are access points for delivering services to citizens from rural and remote parts of the country.
- e-Courts APIs are shared with CSCs.
- Citizens can now get the status of their cases through these centres.
- Those who are not connected on internet platform or mobile app can get the services through nearest CSC.

## LIMBS

- LIMBS mechanism is developed by Department of Legal Affairs Government of India to provide status of litigation to central government institutions.
- eCourts APIs are shared with LIMBS.

## **Integration with Interoperable Criminal Justice System (ICJS)**

## Integration with Interoperable Criminal Justice System (ICJS)

- Inter-operable Criminal Justice System (ICJS) aims at integrating
  - ✓ Crime and Criminals Tracking Network and Systems (CCTNS)
  - ✓ e-Courts
  - ✓ e-Prisons databases
- CCTNS shares FIR and Charge Sheet data in electronic form to eCourts application.
- Names of the accused, details of offence, time, date, place of occurrence, details of arrest, acts-sections etc. is shared.
- Minimizes data entry on courts side.
- eCourts shares CNR number to the CCTNS through ICJS. Further updates about the case are made available through APIs.

# Integration with Interoperable Criminal Justice System (ICJS)

The screenshot displays the eCourtIS ICJS Dashboard for the Junior Civil Judge Court, Machilipatnam, accessed by Sri S.Venkateswara Reddy. The interface includes a sidebar menu with options like Home, Configure Establishment, User Menu, Master, Unification, Admin Menu, Filing Counter, Appeal Filing, Caveat Registration, Proceeding Correction, Fees, I-Court Fees, Registration Section, Case Allocation, Case Proceedings, Proceedings Reports, Litigant Updations, and Appeals Information. The main dashboard area features a date filter (From Date: 01-01-2020, To Date: 06-01-2020) and two sections: E-Charge Sheet and E-FIR. Each section contains four status buttons: Consumed (orange download icon), Verified (green checkmark icon), Rejected (red prohibition icon), and To Be Verified (blue hand icon).

## Integration with Interoperable Criminal Justice System (ICJS)

### Replication in other states

- For replication in other state ICJS APIs to be deployed by the state CCTNS.
- As two distinct systems like CCTNS and eCourts will be sharing data with each other, certain masters may have to use common codes.
  - ✓ Act Codes (as specified by eCommittee)
  - ✓ District codes (Census Codes)
  - ✓ Police station codes (NCRB Codes)
- High court should be ready with national codification for central acts (already shared by eCommittee) and state acts and should share the same with CCTNS.
- High Court should ensure that mapping of Acts, districts and police Station is completed in CIS.
- CCTNS should map national Act codes provided by high court.
- Once these activities are completed, ICJS can be implemented at some pilot location and further replicated in entire state.

# Facilities for Judicial Officers

# Facilities for Judicial Officers

## SMS Alerts

- SMS alerts are provided to Judges when cases remain undated in the court.
- More alerts can be provided.

# Facilities for Judicial Officers

## JustIS Mobile App

- JustIS Mobile App, provided to judicial officers, helps them to monitor pendency and disposal at finger tips.
- Many reports, graphical and in grid form are available in the mobile app.
- Calendar feature provides occupancy at a glance.
- Facility to tag important cases and mark short note for such case is available. These cases are specially marked when listed. Judge can identify the cases of important nature on the cause list.

# Open APIs

## Open APIs

- Open APIs are developed and are being published for district courts.
- These APIs may be used by institutional litigants (like government departments) to further develop their own monitoring and compliance mechanism/ software to track and manage their cases.
- This will help major stakeholders proactively take actions on the courts directions and comply accordingly.
- APIs can be used for particular state or for entire country.
- Accordingly user may have to apply in prescribed format to e-Committee (if data from entire country is required) or respective high court (if data from specific state is required).
- eCommittee or respective state can authorize the user for further use by providing authentication credentials.

## Current Status

- Open APIs for district and sub-ordinate courts are ready and published on bharat API.
- Authorization mechanism is ready.
